ASSISTANT PROFESSOR
Molecular and Cellular Biology
DEPARTMENT OF BIOLOGY

As part of a multi-year hiring plan, New York University’s Department of Biology (http://biology.as.nyu.edu/) invites applications for a tenure-track Assistant Professor in the area of molecular and cellular biology to begin September 1, 2010, or as negotiated, pending budgetary and administrative approval. Candidates investigating molecular & cellular mechanisms underlying cell growth, differentiation and/or transformation are especially encouraged to apply. Strong interactions will exist with faculty in the Center for Genomics and Systems Biology (which is undergoing a parallel faculty search) and the Center for Developmental Genetics. These Centers within the Department of Biology offer an outstanding and collegial research environment.

Candidates will be expected to have or develop active, externally funded research programs and to participate in the Department’s teaching activities at both the undergraduate and graduate levels. The candidate will specifically be expected to teach in the Department’s core undergraduate course “Molecular and Cellular Biology”.

Applications should include cover letter, research statement, curriculum vitae, and three letters of reference. Electronic applications as PDF files should be sent to biology.recruitment@nyu.edu.

Selection will begin October 15, 2009, and applications received before this date will be guaranteed full evaluation. Letters of reference should be sent electronically to biology.recruitment@nyu.edu or to: Chair of the Search Committee, Molecular & Cellular Biology, Department of Biology, New York University, 1009 Silver Center, 100 Washington Square East, New York, N.Y. 10003.

NYU is an Equal Opportunity/Affirmative Action Employer.
